ABOUT DUROGUARDZ

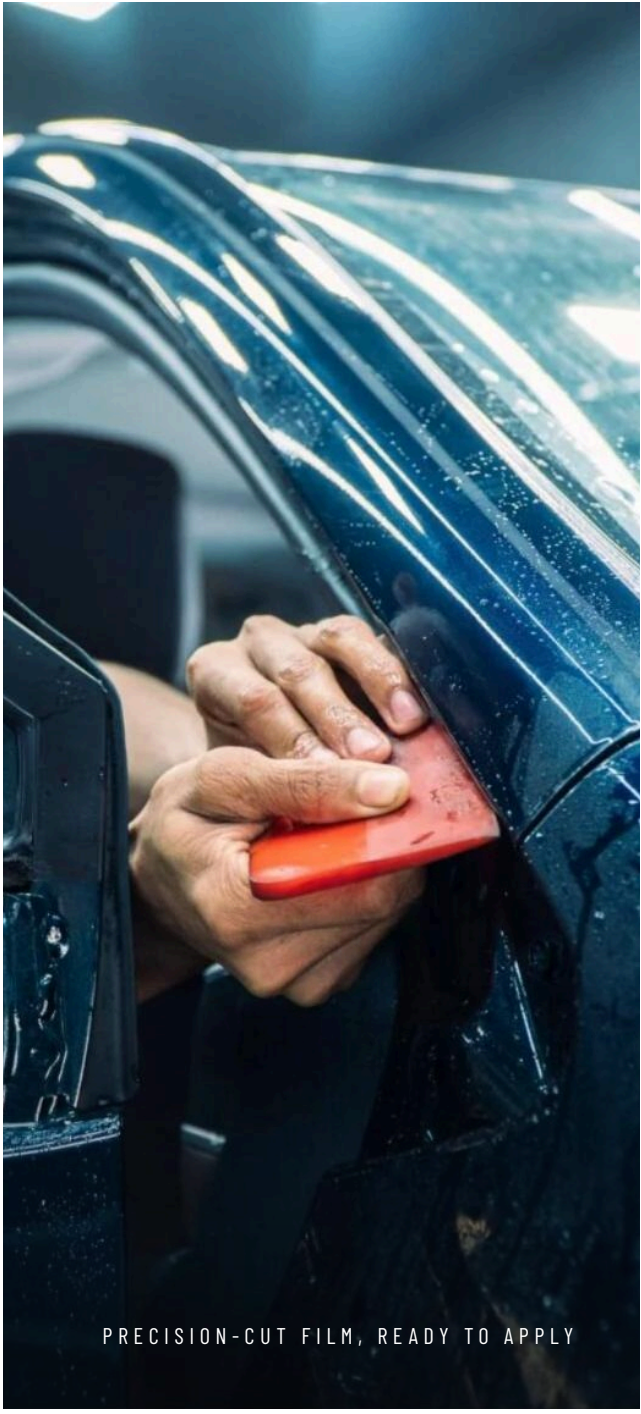

PROTECTION THAT FITS.

DUROGUARDZ is a specialist in pre-cut Paint Protection Film (PPF) and surface protection — built on a simple belief: protecting the things that matter to you should be simple, practical and accessible.

Our core focus is the vehicle. We protect the high-contact surfaces that show wear first — door handle cups, headlights, door sills, door edges, side mirrors and interior trim — with film that is cut to shape before it reaches you. No measuring, no trimming, no guesswork.

The same precision approach extends to electronic device screens, furniture and kitchen surfaces, giving our customers one trusted name for everyday protection.

WHY IT MATTERS

SMALL SURFACE. BIG DIFFERENCE.

The DUROGUARDZ Door Handle Cup Protector places a clear, pre-cut layer of PPF over this area, taking the daily contact so the paint underneath doesn't have to. It keeps door handles looking clean and cared-for — a small upgrade that protects how the whole car is perceived.
